Re: Rexon v. Porter-Cable Case No. 04-CV-30180 MAP

Dear Don:

This is in response to your letter of November 1, 2005 regarding Rexon's desire to amend its complaint in the above referenced litigation to add Black & Decker and assert an additional count of infringement of Rexon's '203 by certain Black & Decker products.

We have considered the amendment and are inclined not to oppose the motion to amend provided: (1) Rexon agrees to supplement its interrogatory responses (including detailed claim charts and proposed claim construction of the asserted claims) within 10 days of entry of the amendment; (2) Rexon provides a competent Rule 30(b)(6) witness on Rexon's infringement contentions of the new and existing accused products by December 30, 2005; and (3) Rexon makes Messrs. Lo, Ku, Chen, Lancaster and Wang available for deposition in Hartford, CT by December 30, 2005.

Also, Black & Decker has analyzed the Tradesman 10" miter saw (Model #M2501W) sold by The Rexon Group under the Power Tool Specialists brand and will be asserting infringement counts of the '040 and '619 patents against this product in our Answer to Rexon's Second Amended Complaint. Black & Decker will supplement its interrogatory answers (with claim charts) for this product and these patents with Rexon ten days after Black & Decker files its Answer to Rexon's Second Amended Complaint.

If these arrangements are acceptable to Rixon, please forward us a draft unopposed motion for leave to file a Second Amended Complaint.

Sincerely,

Dina M. Hayes
